## FLIMSY A-BOMB ARGUMENT

Aside from expressing officially the concern most men feel about the moral aspects of atomic warfare, it is difficult to see what would be gained by Senator Flanders' proposal that the United States outlaw the atomic church out of existence as an inbomb except as a weapon of retaliation.

In effect, that is American policy now, not only for church geared to the machinery the A-bomb, but for other weapons as well. Defense moves, including the stock-piling of A-bombs, are undertaking to deter aggression, not to prepare for a war we plan to cerned.

# Entertaining Is Big Risk (By HENRY McLEMORE)

I gave a fish fry for about 50 people a few days ago, and while I was tearing into a mullet a friend tapped me on the shoulder, and with a grave look on his face, said he would like to warn me of the risk I

was running. 'Risk?" I said, puzzled. "Man, these fish were just caught this

morning Couldn't be any fresher".

"You don't understand," he said. "You'd better watch your step.
You'd better cut out all this big entertaining. You're a Democrat, you know, and if a Democrat gets a reputation as a big entertainer he is liable to find himself appointed American minister to some foreign country. And I know you wouldn't like that a bit".

## You Know What Happened

My friend helped himself to some cole slaw, put an arm around my shoulder, and said, "You know what happened to Mrs. Mesta, don't you? So I advise you to be careful".

With the mention of Mrs. Mesta everything became as clear as a bell to me. By golly, I was asking for trouble, what with my lavish fish fries, wiener roasts, marshmallow toasts, and celebrated Saturday night peanut and popcorn soirees.

Have to cut 'em out, lest like Mrs. Mesta I be trapped by President

Truman to serve this country in a diplomatic post across the waters. Everyone knows about Mrs. Perle Mesta, I guess. As Washington's most famed hostess since the death of Mrs. Evalyn Walsh McLean, she gives parties like other people give the time of day. No paper napkin parties, either, but sumptuous formal things where a black tie would make a guest as conspicuous as if he were wearing a T-shirt or a turtleneck sweater, and where the guest list reads like an expurgated edition of Who's Who. I have never been to one of Mrs. Mesta's mobilizations of the great, naturally, but I have heard tell of them. I have heard tell that at some of them the famous were so numerous that Cabinet members had to eat at second table, and that on at least two occasions,

As for the food Mrs. Mesta serves—and here again I must trust to third—and even fourth-hand information—well, they say there is everything on the table from jellied ear lobes of llama, to a distant relative of Alexander Graham Bell under bell.

I understand that there has been some criticism of Mrs. Mesta's appointment as Minister to Luxembourg, and for the life of me I can't understand it. Food is what most of the world is crying for, and from what I can gather there is always food when the Oklahoma lady is around. Luxembourg can hardly get angry at us when its top officials are stuffed to the gunwhales with Mrs. Mesta's caviar, llama ear lobes,

Of course, Mrs. Mesta's appointment could set a precedent which might, in time, prove harmful. The Senate might confirm Toots Shor as Ambassador to the Court of St. James, Dave Chasen as our Ambassador to France, and Ernie Byfield as Ambassador-at-Large.

Still worse, they might even confirm me as this country's minister

FINEST CIGARETTE LABORATORY

# America's largest cigarette research laboratory is your guarantee that Luckies are a finer cigarette!

TOU SEE HERE the largest and most complete I laboratory of its kind operated by any cigarette manufacturer in America.

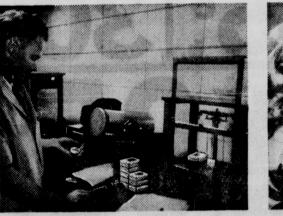

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies-from before the tobacco is bought until the finished cigarette reaches you-comes under the laboratory's watchful eye. Literally hundreds of precision tests are conducted daily to make certain that the Lucky Strike you smoke is a finer, milder, more enjoyable cigarette. As you read this,

a constant stream of tobacco . . . samples from every tobacco-growing area . . . is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

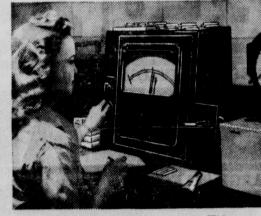

Armed with this confidential, scientific information-and their own sound judgment-these men go after finer, lighter, milder tobacco. This fine tobacco-together with scientifically controlled manufacturing methods - is your assurance that there is no finer cigarette in the world today than Lucky Strike!

Testing tobacco. Samples from every tobaccogrowing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure you that the tobacco in Luckies is fine!

So round, so firm, so fully packed. Typical of many special devices designed to maintain highest standards of cigarette quality, this mechanism helps avoid loose ends . . . makes doubly sure your Lucky is so round, so firm, so fully packed.

# Russia To Harvest Largest Grain Crop Since Before War

Other European Countries Will Slump About Five Per Cent Below Last Year

WASHINGTON, June 30 .- (INS) The Agriculture department predand some of them are not. The Agriculture department predicted today that Soviet Russia will harvest more grain this year than at any time since before the war.

and some of them are not.

Freckles are examples of the harmless variety. Persons who have them do not want them but cannot change them very much.

The agricultural outlook for the Soviet is in sharp contrast, how-Soviet is in sharp contrast, however, to the picture pointed for
nort other countries in Furgne
Nothing should ever be done to most other countries in Europe. A special agriculture report forecast that Europe's 1949 wheat and rye production, outside of Russia, will slump about five per cent or more than 100 million bushels be-

About Two Billion Bushels This would mean a crop of only about two billion bushels and be about two billion bushels and be more than ten per cent below the 1035-39 average 1935-39 average.

For European countries other than Russia, the harvest of corn, oats, barley and grain sorghums is expected to be about the same as last year. But the potato crop and sugar output also are expected to be smaller, despite a jump in sugar beets planted.

Olive oil and fruit production is one of the few bright spots in the picture. Production of these farm products is expected to be "much larger" than last year.

The department said that widespread rains during May and June improved the condition of wintersown crops and gave spring products a good start.

The weather helped over-all crop prospects in northern and central Europe build up to a point where production "as high or higher than last year" is expected. But the harvest outlook in most of western, southern and southeast-ern Europe is still below 1948.

# Nats And Butler Tigers Open Final First-Half Series Here Tonight "Ladies Night" Tonight, Jackie Lyons Wins TKO Over Billy Pozza In Eighth Johnnies Win Twin-Bill New Castle and Butler will open a two-game final first-half sorter. The Table of the Castle and Butler will open a two-game final first-half sorter.

The Nats came home late last night from a not too successful road trip—having won one and dropped three to Youngstown and Johnstown. The Nats have an 'away-from-home" jinx following them. They hope to shake it off the second-half. The Nats have a fine home record, but the out-of-town record is none too impressive.

Giardullo Goes Tonight It will be little Mike Giardullo, the southpaw, who will face the Butler Tigers tonight. Manager Billy Mongiello is hoping to start the second half Saturday against Oil City with his two aces-Frank Wagner and Joe Karakul ready for action. Felix Bucchioni will probably get the Friday night pitching assignment, or it may be Herb Churchill, who has given a good account of himself in his last two appearances.

Famous Clown Coming

Friday night in the final game of the first-half, the Nats management has secured the famous baseball clown, Max Patkin, formerly with the Cleveland Indians, for an appearance here. Patkin will bring some very funny stuff here.

Butler Tigers will be quite confident here tonight, having just knocked the Youngstown team for two straight defeats, and possibly out of the first-half championship.

General Manager Mike Cannavino has promised that four new players are headed for New Castle to help win the second-half title. Cannavino is confident that New Castle's Nats will be in the thick of the

second-half Mid-Atlantic league race. Manager Billy Mongiello is taking over the team again tonight, after a hurried trip to Erie to see a doctor about his injured shoulder. He hopes to get back into the lineup very shortly.

Wouldn't it be real enjoyment if one could cast into the Big Bend of the Shenango, hook a Muskie, then go to Pymatuning and pull out a wall-eye, or reel in a bass from either the Neshannock or Slippery Rock creeks and fetch forth a Northern pike in the Sandy? However, while trout season is yet in, most of those who fare forth will seek bass, but if they fly-fish, they are apt to catch a Brownie, Rainbow or Brook.

George Chip who wore the middleweight diadem in 1913, and part of 1914, likes the chances of Jake La Motta to defeat Marcel Cerdan when they meet again, he stated several days ago.

"He's younger than Cerdan and in most pugilistic encounters, youth shall be served" said the ex-cham-

Chip believes that Cerdan has arrived at the age where the toll of years has caused training to be a grind, and when it does become monotonous, it is not good for anyone's system, he stated.

George referred to his own ca reer, stating that "when I got off the boat in Australia, I had 'sea legs'. However, I went into im-mediate training. I had to force myself to train.

"There was no enjoyment in it. Training was a drudgery because of my weakened legs, and I wasn't over them when I met Les Darcy who knocked me out in the ninth round after a fairly good fight". The Darcey-Chip fight occurred at

Sidney, George was to have re-ceived a second fight. However, GEORGE CHIP Darcy took a boat for America. The first Jimmie Dime, manager, and Chip knew of Darcy's departure was when the promoter, McIntosh, Dime and Chip visited the office of the Referee of which Mr. Corbett, was the Sports Editor, who had heard of Darcy leaving. So instead of fighting Darcy a second time, George took on Art Magirl of Oklahoma City and stop him in the fourteenth round.

Tonight will find the first half of the City Baseball league ending. At present, Universal A. A. and West Pittsburg, are tied for the leadership, both having won 17 and lost five games for a percentage of .773. The Universals are almost certain to beat the Union Civics, a last place team. However, upon one or two occasions the Carm DeLeonemen have upset the leaders during the first half. West Pittsburg will play Ryan-fown, who have won only five games (up to Wednesday evening) and dropped 16, hence it looks like a West Pittsburg victory Croton, Lawrence Independents and the Ecclesian club are bunched next to the Uni's and West Pittsburgh, each having won 14 and dropped seven while Tom Frank's Grillers, has won 10, lost 11 to seven won and 15 lost by the Dewey club. During the first half there were some poor games, but on the whole, the City clubs have played good baseball, and fans have shown their appreciation by flocking to the settoes.
